

What Let's Talk IAPT's employment support programme can do for you!

What does the IAPT employment support programme offer?

We currently offer five different workshop titles including “making value-based career choices” and “CV and Application formats”. Each two hour workshop is an introduction to useful information and techniques you can take away and use within your journey towards achieving your employment goal. In addition to this, we will go over some information, advice or techniques to overcome psychological barriers to employment including information about “stress management” and “dealing with procrastination”.

How can you access one or more of our employment workshops?

You can book yourself directly onto any of our free IAPT employment workshops through using our website at www.lets-talk-iapt.nhs.uk/events. Please then select the workshop you would like to attend and enter your name, telephone number and email address into the booking form. We are in the process of adding our workshop titles to the website so please check back each week to find out about the new workshops that have become available. At the workshop you will also find out about other support from IAPT.
